

This quiet modern design represents simplicity in its best form, with the low-slung roof covering plenty of outdoor area for the rainy days as well as an open paved patio ideal for basking in the sun. It celebrates an open space area with the kitchen, dining room, living room and lounge all connected in one without any walls. Large glass doors let the light in as well as provide the magnificent views of the surroundings; whereas one master and two guest bedrooms provide enough space for a medium-sized family to enjoy the beauty of it all.

Floor Area: 120m²
